

BIO SCULPTURE

THE BESPOKE PATH
TO HEALTHY NAILS

THE BIO SCULPTURE ADVANTAGE

Bio Sculpture offers premium nail care systems and comprehensive professional training, prioritising nail health and longevity. Our commitment to quality ensures long lasting results and empowers nail technicians to deliver exceptional services. Through tailored treatments, we address individual nail needs.

Total Nail Care

Our product range encompasses diverse options catering to professional nail technicians and the discerning consumer. From advanced gel systems and nail care treatments for professionals, to convenient home care solutions and lush spa products.

Professional

Bio Sculpture's professional products are available to nail technicians through brand training. Bio Sculpture endorses the highest standards globally and produces award winning nail technicians worldwide. Bio Sculpture certified training courses hold international recognition within the brand.

Salon and Home Care

Bio Sculpture's home care range is designed for effortless application and maintenance and can be used in the salon, spa or at home. Indulge yourself in healthy and hydrating product options, tailored to suit client's individual needs.

Original Nail Gel

The Bio Sculpture Biogel range is the original, professional, soak-off, easy-wear nail enhancement in a jar. Our system extends and strengthens nails from flexible to solid, providing a durable, chip-resistant, self-levelling finish with a long lasting gloss with over 200 colour options.

Gel Polish

Bio Sculpture Evo Gel Polish system offers a convenient and efficient approach to nail enhancement. The range includes specialised base coats and builders designed to cater to different nail types, ensuring optimal performance and durability, with a wide palette of pigmented colours.

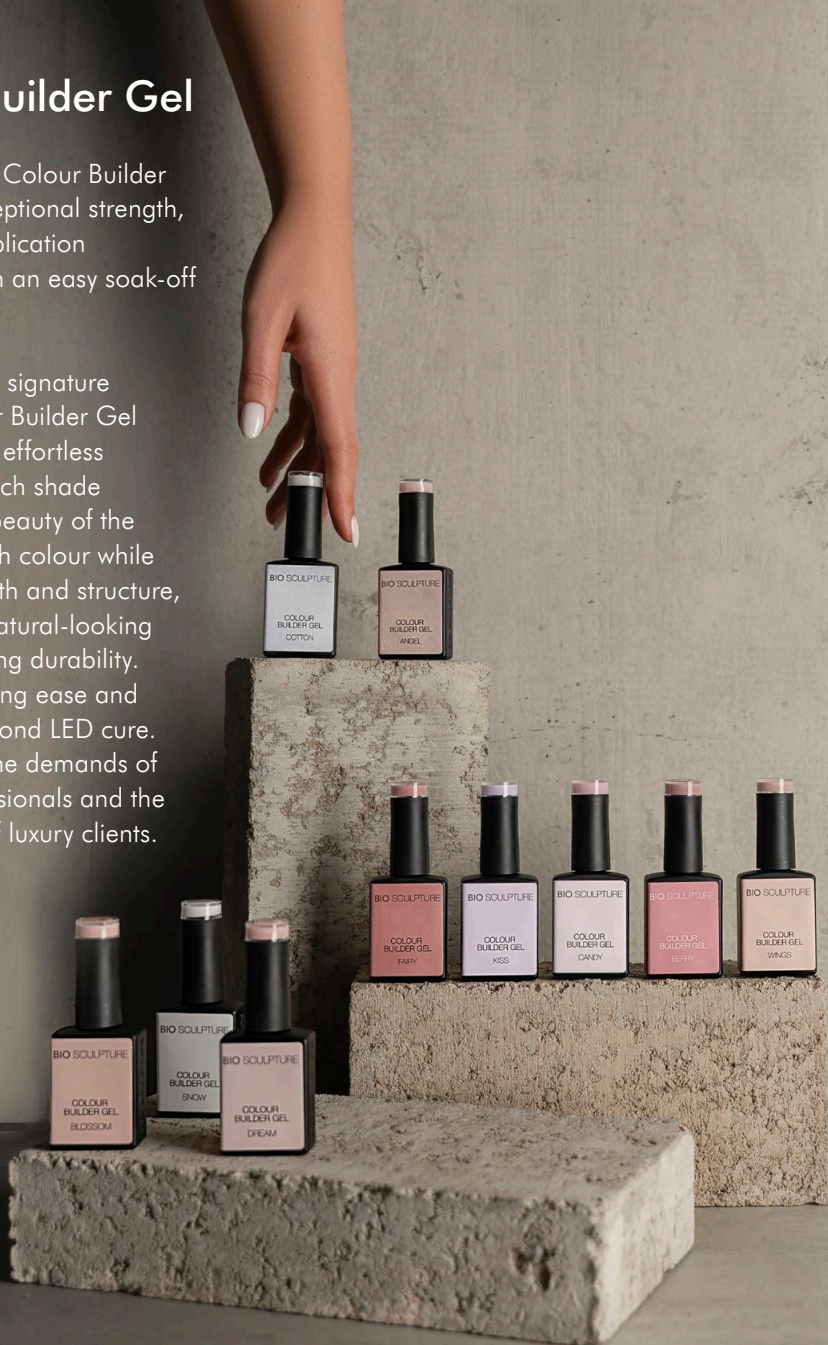

UV Acrylic Gel

Bio Sculpture Bi-Olygel UV Acrylic Gel combines the best aspects of gel and acrylic technology to create a strong, durable, and easy-to-apply product. Its unique paste-like consistency allows for precise application and sculpting making it ideal for creating extended nails.

Colour Builder Gel

Bio Sculpture's Colour Builder Gel unites exceptional strength, colour and application efficiency, all in an easy soak-off formula.

Available in 10 signature shades, Colour Builder Gel is designed for effortless application. Each shade enhances the beauty of the natural nail with colour while building strength and structure, in a thin and natural-looking finish with lasting durability. With self-levelling ease and a quick 30-second LED cure. Designed for the demands of modern professionals and the expectations of luxury clients.

Nail Care

Bio Sculpture Ethos nail care range promotes healthy nail growth, strengthens weak or brittle nails, and enhances the beauty of natural nails. Quick and easy to apply, this range is ideal for salon and home use, and complements our other systems. Can be used before or after our other products to address diverse nail needs.

Nail Polish

Bio Sculpture Gemini Nail Polish contains hardening plant extract agents derived from aloe vera, lemon grass and ginseng. Experience a smooth application, with even coverage and long lasting benefits.

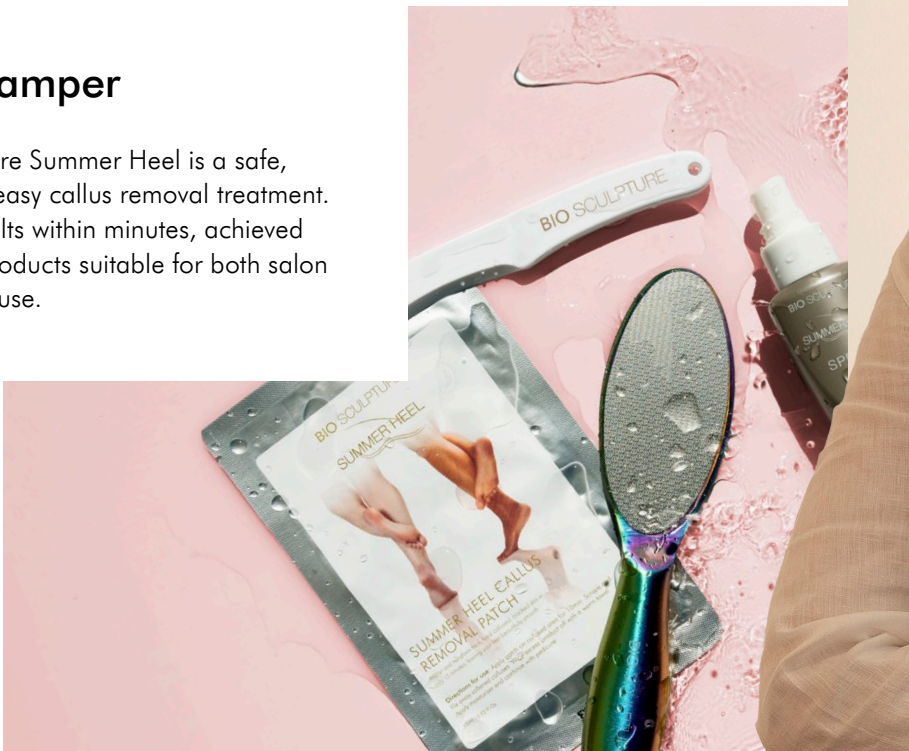

Spa

Unwind and rejuvenate with the Bio Sculpture Spa range, incorporating the finest ingredients selected for their beneficial properties. Indulge in rich body butters, nourishing lotions, and rejuvenating scrubs designed to leave you feeling pampered and renewed.

Foot Pamper

Bio Sculpture Summer Heel is a safe, quick and easy callus removal treatment. Visible results within minutes, achieved by using products suitable for both salon and home use.

Career Training

Our comprehensive training equips nail technicians to deliver personalised treatments which prioritise nail health. We provide solutions beyond traditional methods by analysing each client's unique needs. Our focus on long lasting results and advanced techniques empowers technicians to build successful careers. Access to premium products, ongoing support and flexible work opportunities further enhance professional growth.

Become a Sought After Nail Technician

Embark on your journey with our Bio Sculpture professional training program, presented by experienced educators. Whether you're a seasoned nail technician or a passionate newcomer, our structured courses equip you with the skills and knowledge to excel.

Invest in your future, improve your skills, and join the ranks of the nail industry's elite

Professional Career Training

A 5 day course structured for both experienced and new nail technicians, who desire becoming a Bio Sculpture nail technician. Training modules offer each nail technician comprehensive training in natural nail care treatments as well as Spa product knowledge, Bio Sculpture Biogel and Evo Gel Polish product application, basic nail extensions, Full Cover Tips and product removal.

Summer Heel Training

A 1 day course structured for Bio Sculpture trained technicians and experienced nail technicians. This program equips professionals with a comprehensive understanding and the effective application of the Bio Sculpture Summer Heel system for superior callus removal. Additionally, the program delves into aftercare protocols and retail recommendations for optimal results and client satisfaction.

Bi-Olygel Training

A 1 day course structured for Bio Sculpture trained technicians and experienced nail technicians in a similar product training background. Technicians will receive comprehensive training in natural nail care, treatments, Bi-Olygel UV Acrylic Gel product application, form sculptures, moulded sculptures and product removal.

Nail Art Training

Nail art is continuously evolving and becoming increasingly popular in the nail industry.

Nail art is an artistic and uniquely creative way to paint, gel, build, enhance, embellish, and decorate nails. Learn how to use Bio Sculpture's wide range of nail art products in this 1 day nail art training designed to help you master nail art designs and techniques starting from basic to advanced.

E-File Training

E-File Training is a 1 day course structured for Bio Sculpture trained technicians and experienced nail technicians. Technicians will receive comprehensive training of the E-File system, gel removal, nail plate preparation, dry gel shaping, fills, and finishing touches.

Did you know?

Every nail technician using Bio Sculpture products has been professionally trained to offer a customised treatment, suited to your own unique nail type and condition, promoting optimal nail health. Going beyond traditional overlays, offering techniques that create long lasting results.
